Tea.....	\$5.00
Muffins.....	\$5.00

SEA TURTLES LIVE IN THE GREAT BARRIER REEF, THE PACIFIC OCEAN AND THE ATLANTIC OCEAN. THEIR DIET CONSISTS OF ALGAE AND SEAGRASS. TURTLE ARE INCREDIBLY SMART AND ARE GREAT NAVIGATORS. THEIR BRAINS WORK LIKE MAGNETIC COMPASSES SENSING THE EARTHS MAGNETIC FIELDS.

FEMALE TURTLES LAY ABOUT 100 EGGS PER NEST AND NEST EVERY 2-5 YEARS. FUN FACT: TURTLES ALWAYS NEST IN THE SAME PLACE THAT THEY WERE BORN.
